

GET TO KNOW YOUR BRUSHES

- * Create a square canvas and set up your TEXTURE stack as you would with any Watercolour project.
- * Grab the BRUSH SWATCHING STAMP brush that came free with this download.
- * Pick a colour, I find darkish blue works the best for me.
- * Stamp the brush in the centre of the canvas.
- * Tap the TRANSFORM tool. In the bottom menu select FIT TO SCREEN.

TIP: This is great for testing all your new brush packs, not just Watercolours.

Make sure you're on the same layer as your SWATCHING STAMP, pick a brush and begin filling in the columns accordingly.

BRUSH NAME: _____
Write the name of the brush you're testing.

DABS & SQUISHES: _____
Try to make small dabs with the brush. Also see how the brush responds to being squished down in one spot.

STROKE PRESSURE TEST: _____
Make a single stroke varying the pressure.

TINY TEST: _____
Make the brush size quite small and see what kind of marks you can make.

BIG TEST: _____
Make the brush size Big and make a mark.

SMUDGE TEST: _____
Go to the SMUDGE tool, select the brush you are testing. Smudge the lines created by the SWATCHING STAMP.

ERASER TEST: _____
Go to the ERASER tool, select the brush you are testing. Erase from the dark area created by the SWATCHING STAMP.
